WORK EXPERIENCE

CLIENT SERVICE REPRESENTATIVE

ILAC - International College

Sep 2018 - Apr 2020

Contribute to the compliance and orientation teams, doing Data Analysis to improve the strategy of Online Registration, increasing from 10% to 60% of students arriving at school with registration already completed. This reduced the presence of the staff and students by approximately 50% on weekly orientations compared with the achievement of the previous metric.

JAVA SOFTWARE DEVELOPER

Indra S.A.

Apr 2012 - Aug 2015

Developed and implemented new features for SICOOB's (Brazilian Credit Co-Op System) InternetBank maintaining compliance with local financial laws and guidelines.

JAVA SOFTWARE DEVELOPER

Senergy S.A.

Jan 2010 - Mar 2012

Collected and cleaned data in order to customize electronic reports and feed dashboards to better present information to business teams and provide them with the possibility of data-driven decisions, diminishing issues with the Company of Brasilia (CEB) power transmission lines maintenance and operation.

EDUCATION HISTORY

Post Graduate in Web Development

Sep 2021 - Aug 2022

George Brown College

The program prepares learners with skills in both application and interface development to deliver solutions that meet industry standards for effective code engineering and responsible design, going beyond traditional websites.

Bachelor in Computer Science

Aug 2003 - Jan 2010

University of Fortaleza

All essential fundamental computing skills to solve complex problems and hone your innovation and creativity. Courses include calculus, logic, coding and software analysis.
